October 27, 2008

MX Factor
4230 Charter Street
Vernon CA. 90058

Bender US uses the MX Factor cleaning solvent and in October AQMD came in for an unannounced visit and when they found out we use cleaning solvents they were very concerned. Upon finding the container from MX Factor the AQMD representative was pleasantly surprised in finding that we are using this product and this made the entire process much less stressful.

We recommend to everyone that cleans parts to use this product. AQMD is coming down hard on solvents and this product will keep you in compliance.

Regards,

Bruce Perry
General Manager
